How Pathetic Was I?

When I used to play Pokemon gold. And I would get phone number's. At lrst I didn't know You could get girl's phone number's. I had nothing but dude's in my contact's. When I tried to get this Lass' Phone number my fucking phone was fall. so I deleted this random dude's number. From then on everytime a girl would give me her number I would then delete this random guy's number.

I would then blow all the girls fucking phones up. I was such a friendless dork that when I irst found out you can get number's I called & called & called. They would say the same shit, whenever Lass would call I would get excited as ~~hell~~. hell, I remember reading a post on this dude who was sending text after text to this chick he was digging, It annoyed the shit out of the girl. Life is no fucking video game.

I used to be terrified of this fucking loser who was twice as Young as me. This fucking guy could have been on Maury's out of control kid's. This loser was like that brat in the Looney Tunes episodes Brother brat or Easter Yeggs, His temper freaked me out. Another thing that was scary was he had a lot of clout, Everybody knew him. And he could do no fucking wrong, this loser would start shit w/ me for no reason & I was too much of a pussy to do anything about it. Now I will kill or beat the shit out of that loser & anyone else who want's to stand w/ him. How about that Partner?

All these fucking punk little loser kid's, You want to hang w/ the big boy's I'm going to treat you like one. When I was like 28 I almost got into a fight w/ a 16 year old, Scared little bitch didn't do shit.

My confidence was so lacking that I couldn't even walk right, Everybody was always telling me "Swing your arm's don't look so stiff. Why are You walking like that?" Now I've had 2 guy's tell me I walk like a robot, But that was a long time ago.
The Sonic 3D Blast intro fucking awesome as hell.

10/6

SICARIO

I have Hispanic privilege & I'm not fucking apologizing for it, Where do I fucking start? I use to work in landscaping, their's sterotypes for a fucking reason, Anyway I was working w/ this ese, We were going to trim some houses in Suburbia in a gated community, As golden boy approaches the security shack the gate immediately swings open. Just like that, The guard saw the utility trailer & all the lawn equipment & just let us through; They even waved at each other which was pretty awesome, Not only that some of the landscapers wives are also maid's & they clean the house while the husband work's on the yard. They even have a key & the password to the house for GOD'S sake. There's only 2 people in the world I trust like that, I hope some Hispanics don't get wise & fuck it up for the rest of the homeboy's.

I remember being in driving school, My instructor was black & the dude driving the vehicle was black. Why am I pointing this out? I don't know how it came up but the instructor tells the dude to pull something out of his wallet, He kept his wallet in the storage compartment, He said he keep's it there in case he ever gets pulled over, They really don't like black people reaching for their wallet.

Speaking of cops,

I'ven been pulled over by the cop's 4 times technically 5, And one time I was the passenger, We had a solid alibi all we did was run a fucking stop sign. The cop's told us "driving is a privilage not a right" ~~and~~ and to go home. I was so caught up in the moment that I forgot I had a knife in my pocket, The cop's were white, 1 chick & ~~an~~ 1 dude. The lady cop tells me "I know it's cold you can get back in your vehicle". As a joke I told her "is this going to be on COPS?" she let her guard down, standing around much too casually, not watching me closely enough,

The 2nd time I was guarding cooper on the side of the road, I had almost an hour & some fucking loser called the cop's on me. Lucky for me I had an airtight alibi, Apparently cop's don't like it when you put your hand's in your pocket's.

The 3rd time I was driving around the block practicing how to parallel park for an upcoming driving test. I had gone around the block before & no one said shit to me. But after going around the block the 3rd time I saw this fucking loser eye balling me hard & getting on his phone as this piece of shit saw ~~me~~ me. I was like you got to be fucking kidding me. You know what, fuck that Loser I'm going to keep practicing. Like 3 minute's later the cops show up. Got to love that response time.

Anyhow I got nothing to hide so I kept going like they weren't even there. As soon as I pass them they fucking pull me over. They pulled me over in between the fucking street I live in, so they start asking "why you keep circling around the block?" I said "hey man I'm just practicing how to parallel park".

Money Talks

There goes my learners permit, my license, my registration, my fucking insurance What's up now huh. they could actually read the street sign after looking at my information. That's how close it was. They didn't have shit on me so they let me go.

Worn Twisted Transitor

The world ain't fair eat you if you let it.

So I kept going. When I went around the block again they were still there.

But as soon as they saw me coming they fucking scrammed. They were probably like we better get the fuck out of here before this kid sues the pants off of us. Because w/ the right lawyer & my background I could have taken them to the cleaners. Also they were black.

I hope they told the cocksucker who called them "Don't call us w/ this stupid shit again you fucking loser".

The 4th time I was speeding I was going like 35 on a 25. Heres the thing it was 3 in the fucking morning w/ not another car for miles. This was the 1rst time I've been pulled over where I was in the wrong. As the officer was approaching the window as a joke I said "Don't shoot" the officer didn't know I was playing so he said "why would I shoot you? This was after Amber Guyger wasted that dude. He said "do you know how fast you were going?" I said I was going like 10 or 15 over the limit, He then said license & registration, The cop said were you going? I said work, What time you get in? In like 20 minute's. Since I had a clean driving record & clean criminal record the officer let me off the hook, I should point out the cop was black,

The 3th time I was speeding in a school zone. I was going 35 in a 20, This time the cop was white & I couldn't talk my way out of this one, My fucking luck ran out, I thought that dude was going to scream me stupid Make me get out the car go through my shit but no. That went suprisingly smooth, He even answered all my questions, where do I pay for this thing? How long do I have? I ended up getting a good lawyer, so it all worked out,

Had I been black those interactions could have gone south real fast. Get the fuck out of the car & show me your hands, Don't move loser or I'll blow your motherfucking head off. I could have gotten tazed manhandled or pepper sprayed. But I didn't,

I keep hearing about how people of color & especially the blacks & the Hispanics fear or distrust the police, Get the fuck out of here, Black people have that problem but it's not as bad w/ the Hispanics, one of the officer's who let Rodney King have it was Hispanic.

Another reason is the business side. You name the business chances are there's one that exclusively cuters to Hispanics. There's Hispanic mechanics, And even the majority of the big ones have a lot of Hispanics, Like Dodge, Dentist Rodeo, Hispanic grocery stores, There's Fiesta, Ranchero and Michocana, Ameritax, They even got their own chicken place Regio, Garibaldi Bazaar flea market, some barbershop's. A lot of mom & pop taco shop's, club's like 2001, Chicas Bonitas & Zona Rosa, Their own version of Hooters Ojos Locos,

It pay's to be bilingual, I remember this black dude saying he doesn't make as much as his Hispanic counter part's because he can't speaks the language. Even other races like the slopes & the sand monkey's are starting to pick up Spanish, I've seen job listings were that's actually a requirement,

Just for shit's & giggles sometimes I wear an "It's OK to Be White" shirt. Sometimes these Loser white sjw liberals give me the stink eye. So far none of them have told me off, They either don't ~~sh~~ say shit because I'm Hispanic or these Losers ain't so tough one on one. All the white dude's always tell me "hey dude nice shirt", Only once did a white girl compliment me which blew my mind, I said ~~the~~ American History X "The White Man marches on", She said that's what we're good at, I can't believe there's loser's who are proud of their race ~~b~~ but would deny the same thing for white people. If I was white I'd be like "Why don't you losers kiss my enriched white ass mother fuckers,"

Want me to apologize for my Hispanic Privilege? Why don't you loser's eat my shit & die, It will be a cold day in hell before that happens. Just the other day I heard a black guy saying the Aztecs & the Mayans were ~~black~~ black. I'm sure the Hispanics are going to find that very interesting, I've already seen the reactions, They've taken a page from /pol. We wuz aztecs,

Didn't that Loser Jesse Jackson say God gave You Your ~~r~~ skin color so why not use it to your ~~d~~ advantage.

The Hispanics don't even ~~like~~ like the latinx label. Fucking ~~Los~~ Loser's. What are You going to do call them every type of ism.

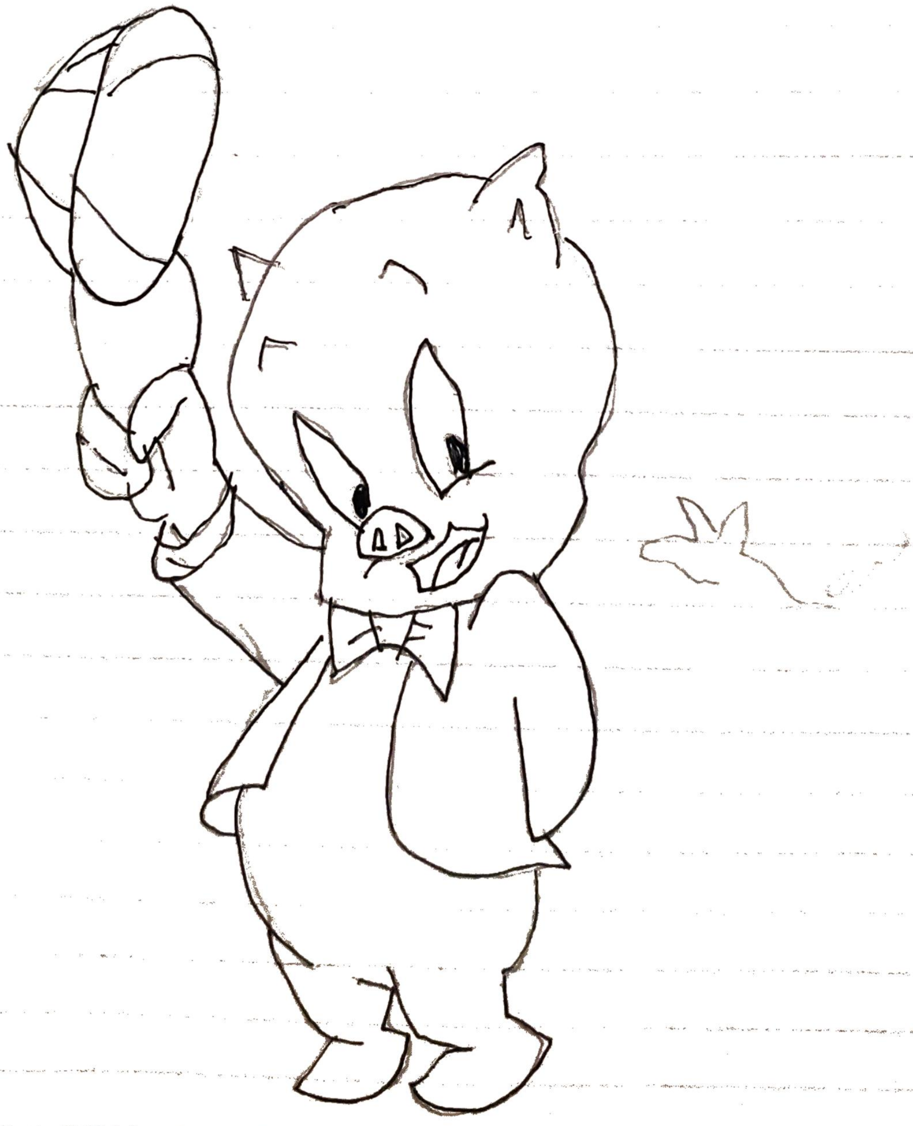
How dare I come to this country & reap the benefits of the thing's African Americans fought for, Because I'm a massive Machiavellian asshole like that & I just don't care,

RAZA LIVES FOREVER

Rush Recklessly

10/6

Rush Recklessly



I feel like I owe it to my White ~~nationalist~~ nationalist friend's how I got to my ~~ma~~ way of thinking & why I don't think like that anymore.

When I was growing up the Hispanics shunned me. I don't know IF it was because I was American born or what. So ~~I~~ all I did was watch TV & played video game's, It was like that all the way through high school. Because of that I was starting to lean far right. Sometime in 2007 or 2008 I saw American History X, I hadn't seen the movie since it came on on WB. And I only saw it because Edward Furlong was in the movie & I only caught the last half.

I shared a lot of the views from the movie, Like the part about I hate the fact that it's cool to be black these day's. The Rodney King dinner table talk & the anti immigration speech Derek gives. I ended up buying the movie ~~like~~ like a week ~~af~~ after I saw. I used ~~to~~ to think no one thought like me. But after watching the movie I knew I wasn't alone. I then discovered websites ~~fi~~ like American Renaissance, Vdare, and the ~~da~~ Daily stormer.

I then joined the Army, when I got to boot camp. It was like that scene in Windtalkers. I have never been around so many White People. And You know what? They weren't the racist the media made them out to be. I then met actual White nationalist & that's when I became a full blown White supremacist. One of my White friend's ~~actually~~ actually said "I'm not a racist compared to you."

It was a double edge sword. These 2 Hispanics dropped me like a hot tamale when they found out about my belief's. Me & this White dude who I got into it w/ later started palling around when he found out about my politics.

When I got out of the army I still had those beliefs. I remember this Loser ~~H~~ Hispanic calling me a racist. This coming from a guy that says only Whites can be racist but likes to call black people niggers. The blank look on ~~loser~~ this Loser when I called him out on it was fucking funny as hell. Wishmaster 2 Gotcha

It all came to a head when I got a job at Texas Finishing Company.

This one time this Loser called me out in front of everybody. The day before this Loser said "say Viva la Raza!" I was self loathing at the time so I said "I'm not it". We went back & forth. This Loser didn't have any arguments, Nothing but clichés, No human being is illegal, We do the job's YT doesn't want to do, so I told this Loser how does Mexico treat it's illegals? Loser say's thats different. Different how? Gotcha. You're doing a monkey's job. I want my fucking job. I remember applying for a ~~job~~ job as a busboy. They started telling me we just hired a couple guy's. these Loser's were all middle aged illegals. It's called ~~b~~ busboy for a reason. What happens when robots take over then what you gonna do? Who was doing those job's before you loser's came over?

This fucking fat ass ~~lo~~ Loser motherfucker said w/ a straight face that Mexicans built everything. At that point I said I'm done w/ this Loser, Thinking like that is one of the reason's Mexico is a total mess right now. I remember this Loser saying border town's are some of the safest in the world. If this Loser really believes that then I dare him to go to Tijuana or Juarez in the middle of the night w/ no Protection. This Loser is either lying or fucking stupid as hell. I've been to Nuevo Laredo twice. The 1st time I went it was night. The place look like it had been abandoned. The only people out were the army & the police, The 2nd time I went it was day. They're were people everywhere.

Admit you have a problem, Avoiding your problem is not going to solve it.

~~the~~ Sometime that same week when it was lunch time. I was grubbing in the break room. so this sure tub of lard Loser calls me out in front of everybody, total echo chamber, so this guy tells me learn your history, Learn my history? I then told him who got BTFO'd at the battle of San Jacinto who OK'd the Gadsden Purchase? This guy quickly realized that he was out of his debt so he clammed up. Then this other Loser fat fuck number 2 started saying the same shit that the last bucket of grease loser was saying. This fat Loser then say's my nephew's don't care IF they were born here they're 100% Mexican. I said I don't give a shit I'm not your fucking nephew's, when this Loser ran out of "arguments" he just ~~kn~~ kept saying "You're Mexican" over & over. I just started ripping on him. Is there a fucking echo in here? Are you on auto repeat? that's why you don't bring up touchy subject's at dinner.

I felt like a champion, Fucking head held high, The look on these Loser's faces was priceless, they ~~kn~~ know they're wrong but they don't want to change or admit it.

Can't even lose w/ grace, Just take the fucking L Loser. I've been in debates where I would change my position just to shut them up or concede while secertly still believing the opposite. Not this time.

Did that really back fire on these Losers, they thought I would change positions or make everyone drop me like a hot ~~tamat~~ tamale, only 1 loser confronted me. This fucking tall drink of oil said "we might all get together & jump you. I said "I'd be careful who you threaten like that because I got 2 gun's at home & enough ammo to kill everyone in here 10 times, I'm telling the boss, fucking pussy ass bitch. The fat fuck who originally ~~call~~ called me out just couldn't let it go, I remember telling these ese's I had a crush on this Hispanic ~~g~~ girl, this fucking Loser say's I thought you didn't like Hispanic's, oh she's jealous. What a loser no wonder Hispanics are the bottom of the food chain.

Loser's ~~can~~ can't handle the fucking truth. It was like that scene in Bury My Heart At ~~Wound~~ Wounded Knee, between colonel Miles & chief Sitting Bull.

I remember watching Jose Luis (Hispanic version of Jerry springer) and they had this self hating Hispanic who was calling other Hispanics Wetbacks I remember thinking I could never get like that. Yet here I am. Speaking for myself obiviously I haven't had positive experiences w/ Hispanic's. I was like Miklo in Blood in Blood out only in reverse, the thing that was hilarious to me was that it was these Losers behavior that caused me to think like that in the 1st fucking place. Now they

Want me to change.

Their was a time when I wished I was White, It was because my own race was treating me like shit.

But then I started having Positive experiences w/ Hispanics, And all the white people I was Meeting were all a bunch of White guilt Losers. Not only that but ~~bt~~ whenever Hispanics would come up to me they would always speak Spanish. And White people would always guess my race right. I thought that Loser Obongo, the Ferguson ~~dit~~ riots, the New Years Eve sexual assaults in Germany & the Rotherham child sexual exploitation scandal would wake white ~~peopl~~ people up.

When they didn't I was like Vegeta in the Call to Action episode of Dragon Ball Z.

Darn those idiots Don't they care about the future of their race. Their like children everything has to be done for them. When are you going to grow up can't you aryans do anything by yourselfs. Darn those aryans. Maybe their not worth saving. Aryans of the World. RAISE YOUR HANDS UP RIGHT NOW OR YOUR ALL GOING TO DIE.

William Luther Pierce said something similar in his diversity is our strength Podcast. Even Michael Savage said you deserve to lose Your country.

I used to think of myself as Benny from The Sandlot. An all ~~same~~ American Kid who just happens to be not white.

I'm just a Visitor,
I'm Hispanic ~~Wheath~~ Whether I like it ~~or~~ or not.

What finally made me snap out of it was a chance encounter w/ my eses. I might upload the video one of these days. I was getting drunk w/ my ese's, & I have never been so proud to be Hispanic, We didn't ~~a~~ exactly put a man on the moon, or find a cure for cancer, I already know that in every way that counts ~~w~~ the Europeans & even some of the Asians have the Hispanics beat. Wheather it's GDP, life expectancy, or IQ, I know & I don't care. Be yourself vato I bet that you'll feel better to be chicano to the bone.

I remember this guy saying IF you have pride in your race it's because you feel inferior to another race, That's just Loser civic nationalist talk.

I remember being at ~~Gui~~ Guitar center one time, this dude was fixing the busted strings on my guitar & this cat eating Loser starts talking to me. I worked in landscaping, I was sick for like 2 or 3 day's, When I came back this Loser told me all the customers were asking for me, They were all White. I was picking up groceries at Tom Thumb & this White lady say's "Son can you please get this jar of beets for me.

Chink surrender Just the other day
I was making a Withdrawal at Chase, the teller was a Hispanic girl, I said hey hows it going. I'm paraphrasing here she said "~~hey its going~~. I'm doing good what can I help you w/ today?" I need to make a Withdrawal $200, How do you want that? All $20s, And I said have a nice day, She said bye Mr Garcia thank you. She was Wearing a cuck muzzle, I wasn't, I was smiling the whole time just because I was in a good ass mood, And maybe the halo effect was rubbing off on homegirl. As I was leaving this bat eating bitch said dude I don't even remember What the fuck she said. ~~&~~

I thought these losers only talk to White dudes & their men out of necessity. Or maybe she saw how me & the Hispanic girl were flowing & wanted an interaction like that, Maybe she just likes the attention other race's give her even IF she's not attracted to them, or maybe it's because she had to. When I used to work at Tom thumb you were supposed to greet everybody & Wish them a nice day. Fuck that shit, I don't talk to ~~the~~ Losers I don't like, IF I never have to deal w/ an Asian bitch again I will die a happy guy, Asian guy's really are a bunch of socially retarded ~~a~~ awkward nerdy bunch of Losers, I used to think that it was fucked up the way Asian girls would shit on their men. Now I don't blame Asian girls for ditching them.

I must be doing something right.

When the whole caravan thing was happening, I remember this Hispanic guy Saying "What Donald Trump said was right it's an invasion", can you speak into my good ear was all I was thinking. I'd never thought I'd see the day when Hispanics would other Hispanics racist. It isn't racist but even IF it was who cares. You think I'm going to fold like Mr & Mrs White guilt. I used to think it was fucked up that illegals got abused. They're just a bunch of Gibs-Me-Dat Loser's. Fuck'em.

Mexico got a taste of it's own medicine in Tijuana. Do the job's Americans don't want to do? Bitch please. They don't want you to come but you Loser's keep coming. the Hispanics in Tijuana didn't disappoint. They were out in force waving Mexican flags. Saying shit like get the fuck out of our country. Dude they tried to give them food. And these son of a bitches were complaining that that's the type of food you give a pig. Only a [illegible] country out of it's mind would take these ungrateful fucks.

The counter protest were pathetic as hell their was like 100 protestors for every counter protestor. One of them was an immigrant advocate chick who got fucked up by some pissed off Tijuana resident's, some of them even mention (((George Soros))) bitch ass.

IF the Hispanics are stupid enough to elect a loser like Almo again & fall for the (((new world order's))) shit. They deserve whatever they get.

Hugs not bullets. I have never heard such retarded shit.

The ~~our~~ cartel's might be a necessary evil. You won't hear them apologizing to fucking china. they also keep the corrupted government in check.

There's a lot of day ~~labor~~ laboureros at Fiesta. As I was at the check out this Loser said can I have some money to buy this tool for work. Peel my banana you fucking loser you ain't getting shit from me, these 2 loser's were world class turds. the type who drive drunk & are hung over 24/7. I'm always saying Raza Lives Forever but there's a limit. Like I'm supposed to give these Loser's money so they can out compete me & drive wages down further.

Sometime's I like to wear an "It's OK To Be White" shirt. I think it's ok to be white but I mainly do it for the shock value, the look on these loser's faces is priceless. ~~A lot of~~

And as for these loser Hispanics that gave me shit, they're going to get dealt with.

I'll show these job stealing, drunk driving, santa muerte worshipping Losers how a chicano fights. I know I'm always saying Raza Lives Forever & all that. What can I say? It's cognitive dissonance to the max.

Starship Troopers

Is there a handful of guts in any of these loser's?
IF White people ever decide to take the southwest there not going to have a hard time. IF I was White I wouldn't just come for the SouthWest, I'm coming for the Whole enchilada ~~alotta~~ i.e. Latin America, Matter of fact I've already butted heads w/ these sore Losers, And to think there was a time when I consider these Losers cool & I wanted to hang out w/ them.

Western man towers over everybody,
Pain Jabberjaw
So what who cares I'm doing it how I like.

IF the Aryans ever decide to take back America their not going to have a hard time, Every time I'm about to fight another Hispanic just like umbrellas they fold. That's why Mexico lost the South West.

This ese from Guatemala said he was impressed w/ how Germany rebuild getting handled twice. While countries like Mexico & Guatemala can't get it together, This dude has it right.

I have to tip my hat off to William Travis, James Bowie, and David Crockett, They were definitely worthy ~~adver~~ advisories. That's why White America might beat Mexico in the 2nd Mexican American War.

IF Mexico takes over the United States I really don't want to share the spoils w/ these other loser races. I don't even want to share the spoils w/ other Latinos, Like the Cubans & Puerto Ricans, Latinos stand up my ass.

I'm a child of the corn that likes to munch on beans & tortillas,

~~A~~ I remember hearing some ~~Lo~~ Loser White hating Mexican guy telling Hispanic men to get W/ a white girl so they don't have White babies. Stupid Mother fucker. that's the dumbest Shit I've ever heard. I'm not taking one for the team & getting W/ a bitch from a race I don't like. What's going to happen when you have dozens hundreds or thousands of Nick Fuentes running around? Then what the fuck are you going to do?

~~TO~~ Papa Roach Scars

I can't help you fix yourself
But at least I can say I tried
I'm sorry but I got to move on with my own
~~life~~ race

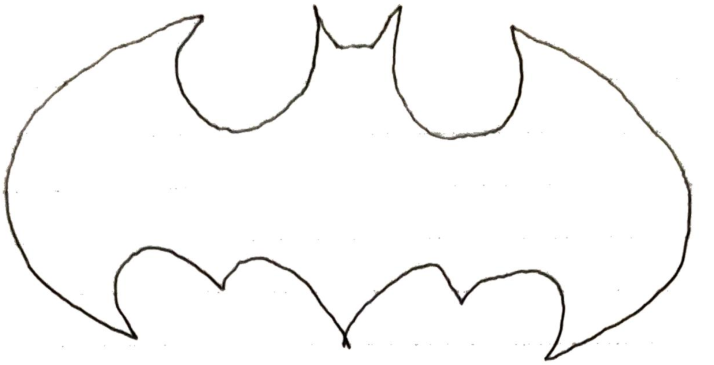
Aversion

10/6

AVERSION



These bat eating losers's are something else. They're self loathing is even worst then my case. Getting plastic surgery to have more western eye's. We know the sort of Losers You pieces of shit You are. The type to bash White people but will instantly smash one IF given the chance.

The type who will talk shit about even their own Kid's when they don't come out looking like daddy,

The type that will dump their own same race offspring to have the kid's of master race chad.

Even at my worst their's no way in hell I would ever sleep w/ the women of a race I hated. Unless it was rape (because rape is a special kind of evil) and even then I would stay the hell away from indian bitches.

Full Metal Jacket

Me so horny for Chad's thunder cock, Losers. Like to talk shit about another race but won't date within Your own group.

But play your hunch Losers IF You think You can get away w/ it, The guy's You are dating might wake up one day & say "Why am I with this anti white bitch when I can actually nail a girl who actually digs me. And then even the men from Your race might not want a try, But only a beta male simp mangina will be thirsty to date that kind of bitch.

The amount of mental gymnastics it takes to even think like that is amazing.

IW

You know What I think? I think you losers Wish you Were White, We all know you want to nail someone like Ryan Gosling, Chris Hemsworth, or Leonardo DiCaprio. But these guy's would never date your sorry asses no matter how work they are. So you have to settle for the soyboy's, All While talking shit about your man. No Wonder you Loser's are so bitter. You Want What ~~you cant~~ can't have. I Wasn't going to go there but this loser's gave me no choice but to say that shit.

Holy shit that is painful.

It reminds me of the scene in Bring it on. Hate us cause we're beautiful Well We don't like you neither.

I remember watching this porno on playboy tv. Black guy's fuck yellow bitches. Out of morboid curiosity I watched it Black dude tearing Asian pussy up. Saying the funniest shit. Fucking cucked ~~los~~ Loser's. You got these Mandingoes fucking the shit out of ~~the smallest tightest pussies I've ever seen.~~ ~~these losers~~ the smallest tightest pussies I've ever seen. It was like watching someone try to fit a jumbo size footlong into a ring finger.

These hoe ass niggas already have the NFL the NBA Bet. Always intruding themselves into Places where they are not Wanted. Just the other day I was watching a documentary about how blackies in Brazil want quotas in White dominated modeling. If that Was me I would been like fuck it let's start our own fashion scene. And I'm not Asian bitches. Liar Liar I was just watching out of sheer morbid ~~curiosity~~. curiosity.
curiosity really did kill the cat

I get enough of both of these 2 set's of ~~Ls~~ Loser's in real life. The last thing I want is watching them on adult entertainment. Not that anyone should be Watching that Shit. ~~Mo~~ Moar on that Later. ~~N~~ That stuff is for loser's.

/

Full metal Jacket

No boom boom W/ soul brother? Moar like no boom boom for kung fu dude. Around 2013 was the ~~la~~ last time I saw an asian dude featured on YOUJIZZ. I actually didn't watch just because I was so used to not seeing these Loser's. Before the internet I got my porn the old fashion way. Magazine's, tapes, DVDS ~~and~~ &

Watching playboy TV. In all that time I've never seen an asian guy. And I saw an asian bitch 2 time's.

You won't see titles like asian dude's Penetrate white bitches or Latin girls go crazy for yellow cock. That must be painful. Only twice have I come across a video where asians guys finally get some ass. And that's since I got my 1rst smart phone in like 2013. 2018 I've stopped watching porn. I wished someone would have told me this a long time ago. But only Loser's watch porn. You're watching some guy smash some bitch you want to do it with. It feels weird.

The day I watch an asian guy fuck a bitch is the day reality falls apart. The closest I came was watching these 3 Losers fuck this white bitch. They were doing it on a bus for God's sake. I saw the 1rst 3 second's. It starts off on a beach man. But then I quickly bolted. I'm not watching that fucking shit. I'd rather binge watch videos on crazyshit then watch these Loser's. Youjizz was pushing that fucking video hard. Every time I would go on there it was on the feature video's. 3 ~~As~~ asians rape white girl, these Loser's can't even get a bitch to themselves. They have to share with other ass faces. I could tell by the thumbnail's. Thank God that loser took forever to buffer.

American pie So instead of finding your dicks and unwrapping the shrink wrap. Rot in your room going the Hikikomori route, that's really too bad.

The cognitive dissonance these white male hating non white bitches have is fucking unbelievable. When I was going through my self loathing phase one of my ese's asked me one of those gotcha questions, "Why do you hate Hispanic's aren't you Hispanic. I just flat out said "I hate myself". I know these Loser's won't admit it.

Caprica "We build the railroads"? I don't give a fuck what you built. Anything you build can be bought, stolen or smashed. During March 2021 & most of 2021 their were asian attacks. Those attacks were vicious. The level of ~~brw~~ brutality was unbelievable. I didn't know you could die at 80

Year's old from a nasty fall. Turns out an injury as an 80 year old is 10 times worse than a 30 year old. Loser might as well have been hit by a charging bull. Slashed across the face. Jumped in the subway, I did feel bad at 1rst but then I heard some of these cat eating loser's blaming white supremacy when it was pretty obivous who was doing them. Give me a break

I hope these Loser's give it to you hard, I hope you fetus munching bat eating Loser's get fucked all the way up. I'm talking LA riot's why are we the victim's 22 Year's down the drain hard & You better not say shit because You're supporting the very same people who are victimizing You.

* This dude on the Roosh V forum said it best.

" My Whitness is so supreme it passively makes blacks chimp out and assault elderly asians hundreds of miles awayw from me."

I havent followed a story this closely since Charlottsville & it's aftermath. The guy's doing them ~~no~~ know no limit's. They went after old people w/ Children. The injuries were nasty as hell. Boycotts, verbal abuse, the subway Philadelphia attack was particularly visious.

I ~~k~~ know I said only Loser's watch porn. I do sometime's watch the ocasional striptease. I justify it by pretending to be at a ~~cabaret~~ cabaret.

From what I've seen & heard w/ asians the girl's make out fine but the dude's have the worst. I can't believe these crouching tiger hidden dragons Loser's would shit on their own offspring.

It just feels weird that no more ~~kara~~ karate movie's coming out. The way these Loser's act isn't doing them any favors they're liars & cheats. Back before I hated asians the way I do now when I heard that Harold was in American Pie, I was like What the hell really? I've only seen it 1 time.

So I decided to watch ~~it~~ ~~again~~ the movie again. I was so immersed I forgot the orginal reason I was watching it in the 1rst place. When Harold finally makes an appearence, I'm like thats it? He's only in the movie for like 10 seconds. I think it's fucking funny when Losers bitch about not getting ~~repr~~ representation in Hollywood when they ~~ha~~ left a country where they had plenty of that.

What's going to happen when these Loser's have children. The girl's will have it better then the boy's. The boy's are going to go all supreme gentleman the Wikes McDermid route or go the neet anonymous drone.

Enjoy your white cock Loser's while supplises last.

10/6

Fur
will fly

One thing I can't stand is an ~~da~~ abusive fucking boss.

When I got my 2nd job the boss was alright. But the longer I worked for him the more abusive the cucksucker became. Calling me a bitch calling me a faggot, I reached my breaking point when he started calling me Osama. I hadn't shaved in like 3 week's because I couldn't afford razors. And when I did get the money there was no store to buy that shit, ~~I have a~~ [illegible] And when I told this Loser to stop by a fucking CVS or a Walgreens the son of a bitch say's no, And he start's talking shit. He played the ace card, Do what I say or you're out of here.

This one time on the way to a job this fucking ~~Kas~~ Loser say's let's Stop by McDonald's. I said I'm not a big McDonald's fan. This Loser then play's his ace card "do what I say or go home"! The Blair Witch Project You got to be fucking kidding me. Just to shut Mr. butthurt up. Fine. My job was to mow the lawn. I mowed the fucking lawn but I could tell this Loser was pissed off w/ me. Mr sand in the vagina South park got mad because I didn't mow that shit twice. Instead of telling me this loser Start's screaming at me You're fired, I'm like alright fine whatever.

So I'm sitting at home contemplating ~~pre~~ My next move. this fucking ~~Kas~~ Loser comes back saying he needs help w/ the last set of houses. I'm under the impression that I was just going to finish the fucking day. I Mow the last of the houses & contemplate my next move again. The next day this Loser come's back. I was like alright I'll go but IF he pulls that retarded shit on me again I'm going to let him have it. call it faith, coincidence, destiny whatever. But during the middle of the work week I caught the ~~Breast~~ Breast Cancer show ever of South Park. the whole fat little lump prep talk really resonated w/ me. Especially the "You refuse to make that fat little lump make you feel powerless. I also saw The Simpson's episode "Krusty get's Busted". When sideshow Bob say's "robbing me of my dignity" I could totally relate.

At the end of the work week this Loser stopped by 711. This Loser

Said go buy some beer. I remember thinking Cheap ASS Nigga, I bought 2 Natural Light's. I'm going to detour a little bit but now that I have money I buy Ultra Infusion, The green can. Anyway's this fucking Loser start's running his mouth. Calling me a bitch calling me a faggot. So I warned this Loser each time more aggressively & sternly then the last to knock that shit off. I said I'm not in the mood. I mean it Shut up. I'm serious as a heart attack shut the fuck up. This fucking Loser kept going.

So I made shit get real real fast. I spit in this Loser's dashboard, I wiped that disgusting grin off his face. This Loser then say's spit on it again. I said "FUCK YOU!?!". This assface then spit's on my shoe. This cocksucker then say's here's your beer & the money so you don't go around saying I ripped you off. It was a tense ride. I normally help this faggot load & unload the equipment. Fuck that let this shit stain unload that shit by himself.

Like a week or 2 later this Loser wants me to go back to work for him. He said he would double my pay. I almost did it but ultimately I said no. I ended up getting a job that paid 3X what this Loser paid me. And now I'm making 6X what this Loser was paying me. And it's steady year long work.

Before that falling out this Loser bought a truck & I co signed. And I put my address. And this bitch ass Loser was using the back yard as a dumping ground. This Loser was always taking the toll & then not paying the invoices. I rented an apartment in my name that loser was living in. This cocksucker breaks the lease leaves the place a dump & doesn't pay the penalties. This piece of Shit makes me open up a bank account to cash all the checks. This Loser defaults & it takes me like 4 month's to pay the bank back w/ my own money. To add insult to injury this dick licker get's a debit card after telling me he couldn't get approved. And the whole time I'm getting letter's & phone calls from all these different motherfucker's wondering when the hell I'm going to pay them back.

On top of that this bitch is making fun of me the Whole time & then the fucking pussy get's mad ~~at me~~ when I say something. I don't Know Where this Loser gets the nerve to say the shit that he say's but he's the biggest piece of shit I ever met in my life. To make thing's Worst this Loser was involved in a hit & run. And since I co signed I got the blame to.

This cocksucker is the type to say I'm going to get my cartel buddies on you. Twice I heard him say that to 2 different guy's. You go right ahead & do that. I'll go all Rambo Last Blood on you son of a bitches. American Me We can all get down & really fuck this place up. If I can get your punk ass alive I'm definitely going to have fun w/ you. I'll throw you in a pit of acid like in Mortal Kombat 2. Or restrain you & throw you in a fire ant hill like in the scorpion king. ~~&~~
payback I'll give you a blood transfusion to keep you alive ~~&~~ if I have to. You're going to start to look like roast beef. then it's your knees loser. You can guess where we go from there. ~~I'll~~ o I'll give ~~you~~ you a hint. Fucking fawn & Quan chi's fatality from Mortal Kombat 4.

Since we run w/ the same crowd, I would see this Loser often. one time I was chilling on my laptop watching movies. And this Loser was talking ~~to~~ to my brothers. My ~~niece~~ niece & my cousin show up. And we start playing computer game's. Even though this Loser was hanging out w/ my ese's he couldn't resist trying to take my company away. ~~A~~ At frst I thought he was just using them as human ~~the~~ shields to break the ice w/ me more on that later. they didn't say shit to him. And IF they did end up ditching me I wouldn't have given a fuck. I would have just gone back to watching movies.

Fucking Loser looked stupid & pathetic as hell. I went outside to get a snack. And I said hey hows it going to another one of my cousin's. this fucking unbelievable scum of the earth Loser does the same ~~thin~~ thing & copies me. Is he going to shadow me for the rest of his miserable fucking life. Let it go cocksucker. Take the L & shut the fuck up.

When I found out he got locked up, I just started laughing. It was that scene in that South Park episode "Tonsil trouble" when Kyle finds out cartman has AIDS, Jesus christ can ~~you~~ ya'll believe that Loser.

caprica

Sweet Jesus I don't know why I put up with this Loser's shit for so long.

Blood In Blood out

Fucking son of a bitch I'll fucking beat the shit out of you fucking Loser, You ain't talking so bad now, IF this Loser wants to dance I know a tune that's called stick ~~at~~ and cut. Bitch ass mother fucker I should have letem have it when I had the chance.

This one time this loser come's up to me & say's can we bury the hachet, I took the stack of letter's from the toll company, late fee notices from Chase & and the apartments & just threw them at that Loser. Why don't you play your ace card again Loser, Oh that's right I don't work for your bitch ass anymore. What are the customer's going to say when I stop coming, Who's going to take the calls & make appointments. This Loser came crawling back like 3 time's, I had to take a trip to Laredo & this son of a bitch thought I was actually going to go back to work for his punk ass. As I was getting on the bus he said "my boss wants to see you when you get back." His boss is a cool guy but that's not enough to put up w/ this mother fucker.

This Loser is the ~~diar~~ diarrhea twins punk ass brother. IF their close to younger brother their even closer to this Loser. So when they found out we ~~were~~ were at ~~each~~ each other's throats they hated/disliked me even ~~mo~~ moar.

The reason I hate those 2 ~~Los~~ Loser's is because I almost got into a fight w/ their younger brother. He was drunk & talking shit. Saying he was gong to beat me up. Calling me a bitch. We came dangerously close to fist fighting. I just walked away. I was standing outside & 1 of the ~~diar~~ diarrhea twins passes me. As this Loser passes me ~~this Bitch~~ she turn's her nose up at me, Even though this bitch saw the whole thing & her punkass brother started it ~~to~~ this Loser still sided w/ him, I don't know which of these Loser's it was.

The final straw was when the incubator yelled at me to get off the computer to let one of these Loser's use it, Before I was where I was I used to be on the ~~cu~~ computer all day, It was all I had. These ~~diah~~ diarrhea Loser's said "can I use it?" I said no, they then tell the incubator & this Loser start's screaming at me to let them use it. It was all I had, I can't tell these Loser's apart so I said fuck them both. They already beat me at everything. They then snatched the last thing I had.

When their Loser brother got locked up. One of these bitches came to the house asking for donations. They said any amount helps. Even IF I had moar money then Jeff Bezos I still wouldn't have given ~~this~~ Loser a cent. I also openly said I hope the judge locks that cow cucksucker up & throws away the key. IF they hated me before they really hated me now.

The thing that blow's my mind is that after like 5 or 6 year's of not saying a word to these little sluts. Now they want to be in my life again. Even though they knew I was talking loud shit. Another thing that is fucking unbelievable is that the ~~ones~~ incubator was putting up w/ the diarrhea twins brothers bullshit to stay in their company. These Loser's used the back yard as a dump. One of them actually stole a lawn mower & a bunch of other ~~stuff~~. Shit, one time the incubator was actually bitching about it out loud. But that's all this Loser could do. Mean while my fucking ass dropped all 4 of these Loser's like a hot tamale & all but the youngest brother want to get on my good sidem again.

Saw2 So now we find the table's have turned. Now you are locked away, Helpless and alone.

Fuck those twin Loser's & fuck their 2 bitch ass brother's.

I got another job w/ another landscaping company.

Lord of War

I soon realized that I just swapped one Loser boss for another.

It was great at 1rst but after a month this fucking Loser got abusive as hell. Cussing me out in front of the whole crew. Making fun of me. I would buy a case of water everyday, I eventually bought a water jug so I could pocket the case water money. It upset the fucking Loser. This one time this cocksucker said can I have a drink. I said no. All day this son of a bitch asked me for a drink. Just to shut him up I said yes but then this Loser say's I don't know where your filthy mouth has been.

I needed new baseball cans because the one I was using was ~~fr~~ dirty as hell. I was at a corner store & they had a wide selection. I bought 2. When work was done I was waiting for my ride. Me & this ese were drinking, this Loser sees me with my new hat's & say's "can I have them? I said no. The ese I was with just busted out laughing, This Loser got butthurt & ~~4~~ said your mean. so I said why don't you cry about it.

For a while I thought it was just me but then 1 day all the crews were all loving beer. I finally reached my breaking point & told one of my ese's if I could ride with them, shortly after we left they started trashing this Loser. He's nickname is pig killer but they were calling him friend killer. They were making fun of his fucked up teeth. The way he laughs at his ~~obno~~ obnoxious jokes. I then joined them telling them all the shit he was talking about them. I remember telling one of my ese's "This Loser ~~said~~ say's you're going to work for him forever". He said don't even kid about something like that.

When we get to storage I started helping my ese's unload their equipment. Friend killer's ~~ego~~ ego was on full display for everybody to see. This Loser has sand in ~~the~~ his vagina & start's yelling at me that I should unload his equipment 1rst. One of my ese's say's "dude chill out it's not like he's standing around doing nothing".

Friend killer has a brother that's ~~bo~~ bordering on retarded. Mother fucker so stupid he's like 50 & doesn't know how to ride a bike. I was trying to teach him one time while I was waiting for my ride. The problem was the bike was too fucking small & wiped out. The next day he tells the whole crew & they all start laughing. No one ever laughs at friend killers jokes & the look on his face was fucking funny as hell.

The reason they call this Loser friend killer is because he fires guy's like it's going out of style for the most retarded reasons. He fired these 2 ese's over a fucking Gatorade. The crazy thing is like a month ago we were both at friend killer's house as guest, swimming in the pool & eating bar b q. We were at 711 and me and this ese were talking sht about friend killer. My friend says "I can't deal with that Loser." He had a case of beer & said "the boss (friend killer) is going to pay for these. He didn't know but that Loser was passing by as he said that. We just started laughing anyway.

I didn't have a phone so I would always borrow the retards phone. Every time he would let me borrow it I would always lower the volume on the Stereo. This Loser would then tell friend killer "oh you going to let him get away with that? He's making you look stupid you can't let him slide with that." Friend killer has a big ego so to be made fun of by someone he's always berating was painful.

One time I bought 2 24 oz beer's. Friend killer started shit between me & the retard. He told the retard "this guy has 2 beers and he doesn't want to share with you. He then says are you going to share with my brother. I was fucking mad as hell so I didn't say anything. Friend killer then says "you see he doesn't want to share". I didn't think this retard was retarded enough to believe this son of a bitch but he was.

This was back when I was buying a case of water everyday. The next day the retard buy's his own water. And friend killer start's yelling at me did you tell my brother not to get your water?" So this Loser who turned his brother against me is now screaming at me over some shit that this piece of shit started. I said "I never told him not to get water". This Loser say's "If you're going to do that bring your own cooler". It turned into that was not was to shit. After saying was not like 3 time's I said fuck you & walked away. He and the retard eventually ended up talking again.

Like 2 week's later friend killer pulls the exact same shit, I was moar mad at the retard for being stupid enough to believe this Loser. ~~Again~~ AGAIN. So I said "Do WANT A FUCKING BEER OR NOT?!" The retard say's yes & friend killer get's butthurt. He's Loser brother was trying to go sober but his little stunt ruined it he didn't start shit this time I ~~was~~ screamed that retard stupid. Friend killer is one of those only I can yell at him Losers.

He then tells his brother to cuss me out, This Loser tells the retard "tell Mauricio he's a faggot that likes to suck dick." I can't believe this Loser actually listens to this piece of shit. I just gritted my teeth. Friend killer then tells the retard "tell him eat shit bitch". The retard starts smiling & he say's "ea--" I then start screaming "fuck you bitch". ~~The retard starts~~ Friend killer then starts laughing & his dumb ass brother is frowning, what a dick sending his retarded ass brother to take his bullet's.

The last straw was when I was burrowing the retards phone. When I go to lower the volume friend killer's sensitive ass raises it back up. I was like what the fuck? I lower it again but this piece of shit raises it again. I just shout into the phone come get me please. I don't even know if they heard me. I then tell this Loser why the hell he kept raising the fucking volume for. Mr sand in the vagina say's I need to ask for permission. I say that's bullshit no one else ask for permission. Besides the fucking windows weren't rolled down & everybody was talking. I couldn't hear shit. This Loser say's It's my truck I do what I want. That's a little boy response to what I
